ITEMS & SYMBOLS - HARP & ALTAR

The Harp in Unforgiving - A Northern Hymn is completely from our own design and original story. The idea of an artifact of the Gods ending up in the human realm was a very intriguing idea. After looking on several designs of Harps we started with the design of something called a Lyre Harp. The instrument was then decorated with a dragon in true viking-spirit, golden inlays and glowing magic runes.

29

ITEMS & SYMBOLS - HARP & ALTAR

The main usage of the harp is to play the instrument for symbols to make progress in the environment. The yellow and red dragon symbols are original concepts made to match the dragon on the harp. However, the symbols that the player has to look for are deeply rooted in Norse mythology.

The three interlacing triangles in yellow is the Valknut and the snake biting its own tail is Ouroboros, portraying Jörmungandr or the Midgard Serpent.

The altar where you acquire the symbols through sacrifice was first supposed to be very simple wooden structures but grew into what they are today. These are decorated with our own symbol depicting Yggdrasil (the World Tree) and a modified version of the Aegishjalmur (The helm of awe).
